

## Enter New Cost or Future Cost for all Items Quickly

The user has the ability to enter in new costs or future costs in a quick fashion.

After the user chooses Future Cost Entry from the Inventory Menu, they need to click on the **Enter Future Costs** button.

The Future Cost Entry screen will appear listing all the items allowing the user to enter in Future Costs.

## IMPORTANT:

Enter in the Future Cost value and press the **Enter Key** twice, enter the Effective Date (**MMDDYY** or **MM/DD/YY**) and press the **Enter Key** twice to bring you to the next line.

Future Cost Entry - 01-SR2SOFTWARE, INC. "Developer version - Not for resale"

Filter On pollo

Category Filter

CancelAccept

Click the Print Checkbox is you want this item to appear on refined price lists.

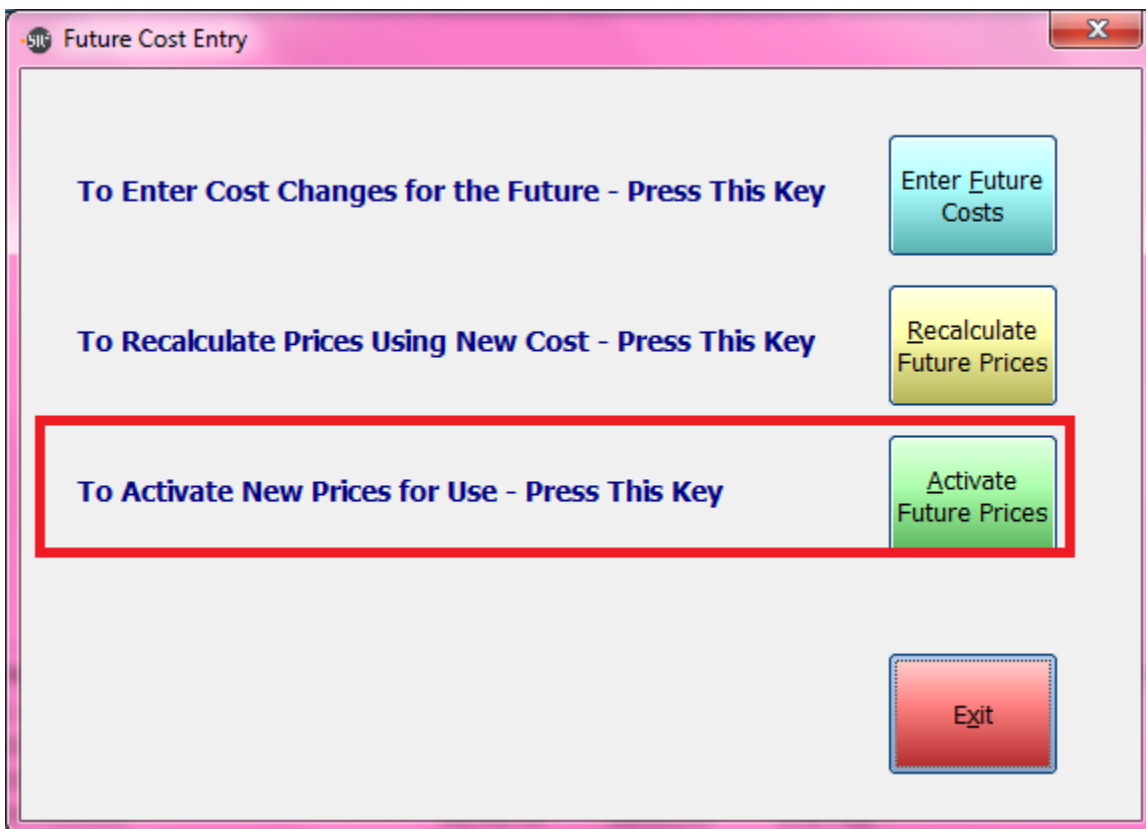

Click the **Accept** button at the bottom of the screen to save the entries.

You can use the filter on or category filter to refine what items were displayed. Before you do perform a filter you must click on the accept button or you will lose any changes to the prices that you have made.

Now that you have the new prices entered you will need to recalculate the new prices for the different price levels by clicking on the **Recalculate Future Prices** button.

The new costs will not be active until the user clicks the **Activate Future Prices** button.

This will activate the Future Market Cost on the effective date and any entries that did not have a date will activate immediately.

You will also see the Future Market Cost and Effective Date in the **Item Maintenance** Screen, in the **Costing/Pricing Tab**:

Item ID	10001	Description	POLLOCK CHOICE BONED FLTS	<input checked="" type="checkbox"/> A
