Click the Print Checkbox is you want this item to appear on refined price lists.
 As you make your changes they will automatically be saved.
 Click the **Exit** button at the bottom of the screen to close the screen.

You can use the filter on or category filter to refine what items are displayed.

Now that you have the new prices entered you will need to recalculate the new prices for the different price levels by clicking on the **Recalculate Future Prices** button.

The new costs will not be active until the user clicks the **Activate Future Prices** button.

This will activate the Prices **immediately**.
